UDHAYAKUMAR .R

B.Tech - Artificial Intelligence and Data Science

Phone no: 91+ 9597698379 | GitHub: https://github.com/Udhayakumar26 | Email: r.udhayakumar0726@gmail.com

CAREER OBJECTIVE

Aspiring software developer with hands-on experience in Frontend Development, Artificial Intelligence and working knowledge of backend technologies. Passionate about building innovative, real-world applications. Seeking an opportunity to apply my technical skills, contribute to impactful projects, and grow continuously in a dynamic organization.

EDUCATION

Velammal Engineering College — Chennai, Tamil Nadu, India
CGPA : 7.63 (till 7th Semester) — 2022- present

HSC: Raja Desingh Vidhyalaya Matric.Hr.Sec.School — Villupuram, Tamil Nadu, India
Percentage : 87%. — 2021-2022

SSLC: Raja Desingh Vidhyalaya Matric.Hr.Sec.School — Villupuram, Tamil Nadu, India
Percentage : 77.4%. — 2019-2020

SKILLS

- Languages: Python, HTML, CSS, JavaScript, React, SQL.
- Libraries & Frameworks: Docker, NumPy, pandas, Matplotlib.
- UI/UX Design: User Interface Design, User Experience Principles, Wireframing, Figma (Basics),
- Tools & Platforms: GitHub, Figma, Visual Studio Code, Google Colab.
- Soft Skills: Communication, Team Collaboration, Leadership.

PROJECTS

- **Byte Brief News Platform:** Developed an AI-powered web application to deliver personalized, real-time news summaries, enhancing user experience through intelligent content filtering and responsive design.

- **Mental Health Chatbot:** Created a Generative AI–based chat application that delivers supportive mental health responses using large language models.

- **Conversational Image Recognition Chatbot:** Developed a multimodal Generative AI chatbot using the LLaVA model via Ollama to process images, text, and voice inputs, generating context-aware responses in real time.

- **Inventory Management System:** Developed a responsive web application to track stock, monitor product movement, and manage inventory data in real time.

- **Text Emotion Classifier:** Built a system to predict the underlying emotion from user-provided sentences, delivering instant sentiment feedback. Focused on usability and efficient data visualization for better decision-making.

INTERNSHIP

Intern – Inventory Management System

ATLANWA, Chennai | Nov 2024 – Dec 2024

- Developed a web-based Inventory Management improving usability and streamline data handling.

- Implemented stock tracking features with an intuitive user interface for efficient inventory monitoring.

- Integrated frontend and backend using HTML, CSS, JavaScript, Flask, and MySQL.

CO-CURRICULAR ACTIVITES

- Participated in the "Tech Innovation " event conducted by Rajalakshmi Engineering College.
  '26th February 2024'
- Participated in the "Industrial AI 24hr Hackathon" event conducted by IIT Madras.
  '5th - 6th January 2025'
- Participated in the meet up event "STEP" conducted by CDW Technologies.
  '1st March 2025'

CERTIFICATIONS

- Machine Learning with Python – Coursera.
- Workshop on Foundations of AI-Native Software Engineering - Fleet Studio (FS Academy).
- Introduction to HTML, CSS & JavaScript – Coursera.
- Power BI and Tableau – Imarticus Learning.

AREA OF INTEREST

- Full Stack Web Development.
- Artificial Intelligence & Machine Learning.
- Generative AI Applications.
